Office Project Task Performed

- Create API for frontend and mobile team
- Database design and Management using Java Persistence API
- Retrieving API and implementation in Vue.js for frontend and admin panel

Office Based Project

- **Bidhana:** Bidhana is online platform for medical store and user. Medical store can sell theri service and user can use those service. Also it is a ecommerce platform.

  In this project, I was responsible to create API for frontend and mobile team. Also, Bidhana frontend was done in vue.js where I implemented design in vue.js and retrive api for frontend. Similar with Bidhana Admin Panel.

- **WOFOWON:** WOFOWON is a website created for organization who fight for the right of women.

  In this project, I was responsible to create API for frontend and mobile team. Bidhana frontend and adminpanel was in vue.js. And my role was to implement desing in vue for frontend whereas Adminpanel was design using vue Element UI component.
